

Light Tape[®] Electro-Lumin[®]X

Powering Light Tape[®] with Direct Current has never been easier!

**Finally, a Lighting Ballast
engineered to be as portable
as the change in your pocket!**

*Shown left, clockwise from top: DC-1800,
DC-500, DC-100, DC-20, DC-50,
DC-150. Not Pictured, 9V.*

- Quiet operation and extremely compact, with sizes starting at 1 in³.
- Vibration and shock resistant with mounting platforms for easy installation.
- Robust design with no load and reverse polarity protection.
- Safety features such as short circuit and overload protection as standard.
- Extremely energy efficient, drawing less than 0.5 milliamps per square inch of Light Tape[®].
- Input Voltage Range: 12vdc (standard) but 3vdc, 6vdc, 9vdc, and 24 vdc options available based on quantities of 250 or more.
- Designed to UL and CE safety specifications, as well as ROHS compliant.
