

## Double your EL life expectancy with Light Tape® Extreme Series™

Light Tape®, the most versatile and energy efficient electroluminescent lamp in the world is now the longest lasting with the introduction of Light Tape® Extreme Series™.

Add an extended lifetime of 40,000 hours to all of the best qualities Light Tape® has to offer, and you have our Extreme Series™.

- Consumes less than 1 watt per meter
- Illuminate 100 feet for under \$30 per year
- New colors that really shine.... Try our new Kryptonite Green!
- Fantastic for POP applications - jazz up your display with twice the battery life.
- Highly visible, crisp light like no other.
- Up to 10 years of useful life, perfect for long life applications such as nightclubs and cinemas.
- Specify Light Tape® Extreme Series™ for your next project and become a lifetime believer.
